

## PROVISIONALS USE FORCE AGAINST INSURGENTS

### WILL ATTEMPT ADJUSTMENT OF COAL STRIKE

Large Operators to Be Called to Capital to Talk Matter Over with Harding

(By Associated Press) WASHINGTON, D. C., June 28.—President Harding has decided to summon to Washington next Saturday a group of representatives of the coal operators from all parts of the United States, to discuss with representatives of the miners union the possibility of a conference to fix wage scales that would settle the bituminous coal strike.

### HOLY SEE SAYS JEWS MUST GET EQUAL RIGHTS

Will Not Consent to Jews Enjoying Privileges Over Other Nationalities

(By Associated Press) GENEVA, June 28.—The Holy See readily agrees that the Jews in Palestine must have equal rights with other nationalities, but it cannot consent to the Jews enjoying the privileges of a preponderant position over other nationalities and faiths or to the rights of Christians being insufficiently safeguarded. The Vatican declared in a letter to the league of nations.

### GENERAL SAWYER IS BLAMED FOR DELAY

(By Associated Press) SAN FRANCISCO, June 28.—Of the blame for the government's short comings in hospitalization work for world war veterans should be placed on Brigadier General Sawyer, President Harding's personal physician, Humphrey Sullivan, of St. Louis, representing National Commander MacNider of the American legion, told the convention of disabled veterans of the world war. He charged General Sawyer, who is head of the national hospitalization board and given authority by Director Dawes of the budget, to determine its policy with attempting to economize at the expense and health of the wounded men.

General Sawyer "is interested in places of rest for those who pass the hospital period. When we read in the papers of veterans that are committing suicide at the rate of two a day, we wonder if the brigadier general is speaking of graves," declared Sullivan.

### ALBERT CICOLA FUNERAL QUITE LARGELY ATTENDED

Funeral services over the remains of the late Albert Cicola, who died last Saturday afternoon at the county hospital, took place this afternoon at 4:30 o'clock from the undertaking parlors, and quite a number of friends were present to pay their last respects. Interment took place in the local cemetery.

A. H. PETERSON is here from Big Pine to look after business matters.

### S. P. IS RAPPED BY OMAHA BUSINESS MEN

(By Associated Press) OMAHA, June 28.—Adoption of a resolution by the Omaha chamber of commerce to request the Nebraska delegation in congress to oppose the enactment of any laws which may nullify in effect the recent decision of the supreme court divesting the Southern Pacific from control of the Central Pacific, was made public here today. The interstate commerce commission is also asked not to sanction any order that would void the court's decision.

### LABOR SHOULD MAKE ANSWER COURT RULING

Brotherhood of Locomotive Engineers Would Enact Laws Of Real Protection

(By Associated Press) CLEVELAND, O., June 28.—Organized labor should answer the recent decisions of the supreme court with a campaign to secure the enactment of a law which will protect it from suits for damages by employers instead of denouncing laws, the Brotherhood of Locomotive Engineers stated in a bulletin issued today.

### INSTRUCTORS IN FLYING TO BE OUT OF JOBS

Japan Notifies Workers Their Services Will Not Be Required Any Longer

(By Associated Press) TOKYO, June 28.—The naval department has notified the master of Sempill and other British aviators brought here to teach Japanese of flying, that their services will not be required after this year. In fact most of the instructors expect to leave Japan early in the fall.

The department is of the opinion that the Japanese navy has not sufficient men to carry on this branch of the service without the aid of foreign instructors. The latter have done good work here and contrary to those who thought the Japanese were not temperamentally suited to flying have succeeded in producing quite a number of expert aviators. They are not, according to one of the British aviators, quite as reliable in an emergency as American or British aviators would be, but for general purposes are quite up to the best in America or Europe. They have good aeroplanes, a fleet of airplane carriers and a considerable number of serviceable machines.

Now the war department which already has a good aviation corps is bringing on three French experts to erect machines at the Taworawasa school with a view to improving the machines being used by the army. The Frenchmen will be used in the construction of Farma air in training Japanese engineers in planes.

The army also is purchasing an privately owned airfield at Hamamatsu and a factory in the same neighborhood. A wireless station is being erected at Kasumigaura airfield to maintain communication with the aviation corps in northern Japan.

### MEXICAN TROOPS TO RESCUE AMERICANS

(By Associated Press) MEXICO CITY, June 28.—Mexican government officials believe the kidnapping of a Bruce Belaski in the state of Morelos and the capture of 40 other Americans near Tampico within a few hours of each other are isolated cases of banditry which will be adequately attended to by federal troops now in pursuit.

## BATTLE OF MACHINE GUNS AND CRACKING OF RIFLES IS HEARD IN MANY SECTIONS OF DUBLIN

(By Associated Press)

DUBLIN, June 28.—The Irish provisional government today took forceful action against the insurgents of the Irish republican army, invading the four court buildings where the insurgents were entrenched and opening a hot attack when the command for surrender was ignored. Fighting which opened shortly after 4 a. m. is still in progress this afternoon and the crack of rifle fire and rattle of machine guns is resounding over Dublin above the noise of the city's traffic which is being carried on as usual. Powder hall on Parnell square, occupied by the irregulars, was also attacked by the Irish government troops. The attack was preceded by sending two ultimata to "Commandant Rory O'Connor." One demanded the release of Lieutenant General O'Connell as

assistant chief of staff of the regular forces, seized yesterday by the insurgents. The other set the time limit after which the attack was to be made.

The premises in of Great George street, occupied by the communist party and the I. W. W. as headquarters, was fortified after the government attack on the four courts was begun by government troops who fired upon them from the fortified building.

Rumor that Rory O'Connor, republican insurgent commandant, had been wounded was in circulation, but unconfirmed.

Fire broke out in Powder hall shortly after noon. At that hour it appeared the irregulars holding the four courts had taken refuge in a cellar in the rear of the structure. The irregulars evacuated Powder hall in the late afternoon.

### JAMES M. COX STILL PEEVED AT DEFEAT

(By Associated Press) NEW YORK, June 28.—Taking a fling at President Harding's administration for his attitude toward the league of nations, the tariff and other issues, James M. Cox, democratic candidate for president two years ago, sailed for Europe today to witness what he described as the "consequences of a steady flow of doing nothing by the present administration at Washington."

### U. S. RESCUE CAR IS HERE TO INSTRUCT

Is Open to Public Inspection Between Hours of 10 a. m. and 5:30 p. m.

The U. S. rescue car is in Tonopah for a sojourn of six weeks and is stationed on the sidetrack back of the railway station. This car came here direct from Searchlight and will be open to the public, even children, if the latter are accompanied by adults, and inspection can be made any time between the hours of 10 in the morning and 5:30 in the afternoon.

Following the Fourth of July celebration or on July in a campaign of training in rescue work will be started for the benefit of the Tonopah Belmont Tonopah Mining Tonopah Extension West End Consolidated and Tonopah Divide teams to be selected from each property above mentioned. Training will consist of first aid treatment, including rescue work from the mines, while the use of oxygen helmets will be taught that the men may know how to pass through poisonous gases.

The car is in charge of Robert Donovan, former resident of Tonopah, whose parents still reside here, and J. P. Harrington of Denver.

### FATHER KILLS SON AND THEN COMMITS SUICIDE

(By Associated Press) FRESNO, June 28.—Conrad Nelson led his five-year-old son, Harold, to a secluded spot half a mile from home and there shot the child. After throwing the body into an irrigation ditch, Nelson shot himself with fatal effect.

### CONVICTS ESCAPE

(By Associated Press) REDDING, CALIF., June 28.—O. S. Sonne, F. Pimental, J. A. McDonnell, Folsom prison convicts who escaped from the Big Bar road camp on June 18 and captured later, broke jail at Weaverville last night, according to word received by the sheriff's office here. It is believed they have stolen an automobile. A posse is pursuing.

### CENTENNIAL OF MARION'S BIRTH TO BE OBSERVED

President Harding and Other Notables Will Attend the Meeting July 2-5

(By Associated Press) MARION, O., June 28.—President Harding, General John Pershing, Hamilton MacNider, national commander of the American legion, and other nationally and internationally known figures are expected here early in July to attend the celebration of the centennial of Marion's birth.

July 25 has been fixed as the dates for the observance but to date no definite program of speech making has been arranged.

Sunday morning, July 2, will be given to religious exercises in the churches. Monday afternoon there will be a musical program and in the evening the chief musical event of the centennial celebration will be staged.

Tuesday morning there will be a program for the children, including a children's horse show. In the afternoon the American legion post will stage an independence day celebration.

Wednesday is planned as the big day of the celebration to begin with a mammoth parade in which all periods of the city's growth will be shown.

Wednesday will be a pageant at the fair. The final event of the program grounds Wednesday evening. The pageant has been written by Miss Eleanor M. Freedland, formerly of Marion, but now of Pittsburgh. It will depict Marion's history.

### COMMITTEE WANTS YOU TO DECORATE

Your committee has met with a hearty reception in gathering funds for our celebration next Tuesday; the business men have outdone themselves and the mine operators have entered into the spirit of the occasion and are aiding in every possible way.

We urge each and every business house to decorate its front, if possible we would have you contest for the prize offered. At least have some decoration in front of your place. Every home should have flags flying from its porch.

The prizes offered for the parade and Mardi Gras should prompt every person with an idea to enter. There is much to crowd into a one-day celebration which makes promptness absolutely imperative. If you are disqualified by the judges for tardiness it will not be their fault. It will be a gala day and you can help make it memorable.

### WM. McKNIGHT NAMED DEMOCRATIC CHAIRMAN

(By Associated Press) RENO, June 28.—With the election of William McKnight, Reno attorney chairman of the democratic state central committee, and the appointment of members of the committee representing each county, the one-day state convention of the democrats closed the work late yesterday. The platform carried one plank aimed at the Ku Klux Klan, as follows: "We are opposed to any and all organizations which have for their purpose the enforcement of law otherwise than through the constituted authority."

### MIDWAY MAKES SHIPMENT OF SPLENDID ORE

First Consignment From 1200 Level Goes Out to the Belmont Plant

The Midway has entered the shipping list on company account, and a consignment of 40 tons was made yesterday to the Belmont mill. This ore was taken from the 1200 level where the company is progressing development in two drifts, cutting the vein was picked up beyond the fault following instructions being given by George H. Garry, the well known consulting engineer.

The vein matter is somewhat broken up but seams of high grade ore mixed with highly mineralized quartz have been followed with pleasing success, and it need prove no surprise to learn at any time that important developments have taken place.

### TRAIN SCHEDULE TO BE SURELY ENJOYED

The Tonopah & Goldfield Railroad company announces new train service from San Francisco to Tonopah, effective at once. Hereafter passengers have left San Francisco on Southern Pacific train No. 6 at 7 p. m. remaining at Reno from 8:10 the following morning until 8:15 of that evening reaching here the next morning at 6:50. Passengers who wish to spend a few hours in Reno may continue to use this service; but for the accommodation of passengers who wish to spend a shorter time en route a through parlor car has been put into operation on trains 18-24 from Oakland Pier to Reno. Passengers using this car leave San Francisco at 7:40 a. m. arriving at Reno at 8 p. m., where change is made into Tonopah sleeper leaving there at 8:15 p. m. and arriving in Tonopah at 6:50 a. m., the trip thus consuming but a few minutes over 23 hours.

### REPUBLICANS ADOPT SCORCHER PLATFORM

RENO, June 28.—An attack on the present democratic administration of Nevada was made in the platform adopted by the republican convention here late yesterday, charging "extravagance in government." The platform plank purports to show that since 1914, the last year of the term of Governor Odell, the state expenses have practically doubled.

### SHIP SEARCHES VESSEL FLYING GREAT LIGHTS

Radio Message Says Vessel is Probably Carrying a Big Cargo of Liquor

(By Associated Press) SAN FRANCISCO, June 28.—The naval radio station here received the following message today from the captain of the steamer Hambold which is searching for a ship reported afloat off Ventura, Calif. "We ran into a boat, signaling ashore with lights and when we hoisted them and tried to overboard them they turned out the lights and ducked. They are probably bootleggers and run runners, signaling ashore to get the cargo of booze taken off."

### JAPAN FINDING TROUBLE HOUSE ITS POPULATION

Immigration Only Solution to Great Problem that Now Confronts Country

(By Associated Press) OSAKA, June 28.—The English edition of the Osaka Mainichi, the only foreign newspaper in Japan, conducted exclusively by Japanese, claiming that the latest statistics show that there are 425 Japanese to every square mile of Japan proper and that the population is increasing at the rate of 14.6 per thousand, says it is a grave problem for Japan to find an outlet for her people. Japan lacks natural resources and is already overpopulated as the Mainichi says, emigration is the only solution, it suggests. South America as the place to send the overflow.

"Both the United States and China keep their doors shut against the Japanese people, and it would be impossible for the Japanese to emigrate into those countries," says the Mainichi. "It is true that there are Manchuria and Siberia left for Japanese emigrants but there are rather places for capitalists to exploit than for laborers. Under present circumstances it seems that South America offers the most promising future for the Japanese people, both politically and economically. It may therefore be said that the key to the solution of the present difficulty of population question in Japan lies in the emigration of the Japanese people to that country."

"As a matter of fact, emigration to South America has long been going on, as is seen in the presence of many Japanese in Brazil and in the neighboring countries, but it has hitherto been carried on in a very half-hearted manner. The majority of the Japanese emigrants to South America were poor laborers without capital and without any capable leaders, and the result was that they did not succeed and led miserable lives there. It will therefore be seen, that the present method of emigration to South America should be radically improved so as to make it a success."

Several parties of Japanese, going to the centennial exhibition at Rio Janeiro are to look into the possibility of Japanese settling in Brazil but the government denies the reports that this movement is to receive official support.

### BODIES TAKEN FROM MINE BY RESCUE CREW

Wiklund and Johnson Had Been Killed Result of Cave In Manhattan Mine

The White truck belonging to the county, as well as a Dodge car, left this morning for Manhattan to retrieve the work of unearthing the bodies of John Wiklund and Otto Johnson who lost their lives on May 13 as a result of a cave in a placer property they owned near the William Patrick mine.

The White truck was loaded with three large cylinders of oxygen from the U. S. bureau of mines, a high pressure oxygen pump, five sets of oxygen breathing apparatus and other equipment. Five members of the Tonopah Belmont rescue crew in charge of Robert Donnelly of the rescue car, and Charles Hubert, deputy state mine inspector, accompanied the truck, and the task of extricating the bodies of the two unfortunates was resumed this morning.

The head and shoulders of Wiklund were uncovered last evening by C. T. Lawrence, directing a crew of workmen but the air became so foul that it was decided to wait until this morning when the rescue car equipment would arrive. Johnson's body had been located up until noon today but it is supposed he advanced farther into the drift and became buried beneath a large amount of rock. The body will no doubt be recovered before the day is over.

### ARROWHEAD IS QUITE A BUSY MINING PLACE

Owners of Property Rushing Development Before Close of Fiscal Year

The Arrowhead district has been alive with prospectors and mining men during the past couple of weeks. Assessment work is under way and a great many properties have been receiving attention. Joseph McQuire has about completed the required work on the Silver Basin group, while Al Moberg returned today to Tonopah after completing the work on the holdings of the Arrowhead Wonder Mining company. Pete Fox has completed the year's work on the Syndicate holdings, and James Hyde is through with the work on the Consolidated and Gold Hill groups. M. J. McVeigh, who is prospecting development on the Arrowhead Extension was an arrival in Tonopah yesterday. He states that the shaft has attained a depth of 192 feet and that a considerable flow of water has been encountered.
